CHICAGO by
Norm Architects. 2020

Inspired by the modernist architecture and the unobstructed repetitive building techniques known from the mid century, the Chicago cabinet collection stands as a tribute to this particular architectural period.

With its light and floating appearance the sideboard almost appears as a piece of modern architecture itself. The elevated solid steel construction gives stability and structure while the floating wooden cabinet adds the spacial impression. The table top functioning as a floating roof with its extended eaves completes the minimalistic framework combining three simple natural materials, wood, steel and stone.

Inspirado por la arquitectura modernista y las técnicas de construcción repetitivas y sin obstáculos conocidas desde mediados de siglo, la colección de aparadores Chicago se define como un tributo a este período arquitectónico particular.

Con su apariencia ligera y flotante, el aparador casi parece una pieza de arquitectura moderna en sí misma. La construcción de acero sólido elevado brinda estabilidad, mientras que el cuerpo de madera agrega la impresión espacial. El tablero de la mesa que funciona como un techo flotante con sus aleros extendidos completa el marco minimalista que combina tres materiales naturales simples, madera, acero y piedra.
