

punt

A R T & D E S I G N

Los proyectos de hoy en día ya no cubren una única función. Las oficinas son espacios creativos, las personas buscan entornos más humanos para comunicar, inspirar, enseñar y liderar. Los hoteles se convierten en un atractivo turístico más, o freciendo calidez y diseño son la guinda de un viaje exótico o el descanso hogareño tras un largo día de trabajo. Los restaurantes maridan la creatividad culinaria con la experiencia del consumidor que interactúa con un entorno igualmente sugerente.

El equipo de Punt y los diseñadores con los que trabajamos son las personas más apasionadas por el diseño que conozco. Editar piezas que arranquen emociones a nuestros clientes forma parte de nuestras vidas más allá de nuestra profesión. En el actual mundo Contract en el que los profesionales de la decoración son libres para crear más allá de lo esperado, esperamos ser una parte de su inspiración, de la excelencia de sus proyectos.

Mariano Soria. CEO de Punt.

Contemporary design doesn't meet one single use anymore. Offices are creative spaces, because people are looking for more human environments for communicating, inspiring, teaching and leading. Hotels have become another tourist attraction. They offer cosiness and design as the final touch to an exotic trip or the homely rest at the end of a long work day. Restaurants pair culinary creativity with the experience of a customer that interacts with an equally suggestive environment.

The staff of Punt and the designers that we work with are the most passionate people about design that I have ever met. Producing pieces that bring emotion to our customers is a part of our lives beyond our profession. In the contemporary world of Contract where decoration professionals are free to create beyond expectations, we want to be part of their inspiration, of their projects' excellence.

Mariano Soria. CEO of Punt

A R T & D E S I G N

Punt. El punto de inicio de un camino sin fin en la forma de concebir el diseño.

Como en una escultura, cada encuentro y cada material son la génesis de la magia de una pieza que aspira a dar emoción y función a partes iguales.

Punt. El punto de encuentro del arte y la adaptación a cada espacio que acompaña nuestra vida.

Punt. It is the starting point of a never ending line of a design conception.

As on a sculpture, each encounter and each material is the origin of the magic of a piece that intends to provide a balance between emotions and functionality.

Punt. It is the meeting point of a piece of art and its adaptation to the spaces that fill our lives.
